having received support from :

- la ville d'Arras
- la Communauté Urbaine d'Arras
- le Département du Pas-de-Calais
- la Région des Hauts-de-France

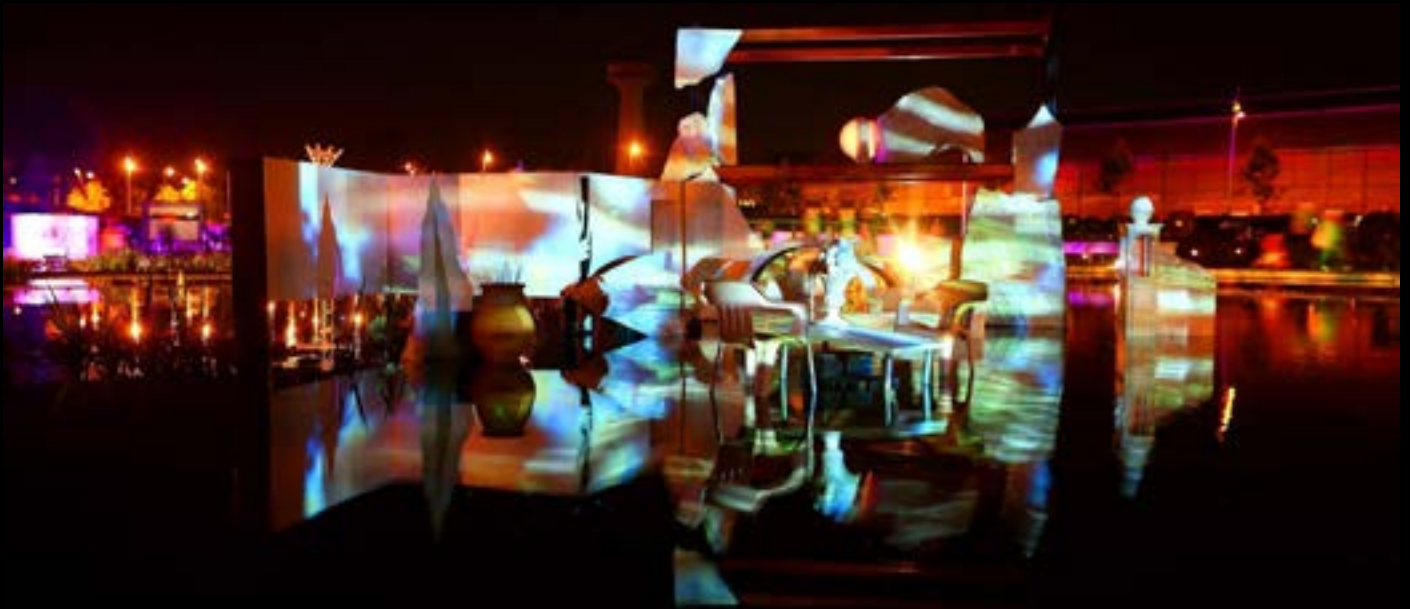

photo : Julien Mellin

Les Nuits des Bassins offered by the Ateliers de la Halle were created in 2015.

They take place over **two nights in the form of a poetic stroll and artistic surprises** by the water, in the magnificent gardens of Val de Scarpe and Cité Nature.

It is a unique opportunity for lovers of new forms of contemporary art, or simply curious, to immerse themselves in works combining digital art, video-mapping, visual and sound performance, interactive creations, and to **meet the artists**.

Each year there are a **dozen European artists**, several of whom are in creative residency, who confront the technical and artistic requirements of the basins, gardens and spectacular industrial hangar adjoining the Ateliers de la Halle.

2 free evenings to come with family or friends.

Rich, varied and surprising programs with prestigious partnerships such as the Center Pompidou, the London University of Art, ESAD de Caldas da Rainha, e-artsup Lille, Arras Film Festival, Monstra Lisboa... and others to come.
